To: Her Majesty Queen Elizabeth II, Her Prime Minister  
& all Her Majesty's Ministers of State.

I (my full name and title).....

Of (my full address).....

..... Post code.....

Hereby renounce European (EU) citizenship which was imposed upon me through the Treaties of Rome and Maastricht. By means of this document I free myself from the burdens of citizenship of the above foreign power to which I have never sworn an oath of allegiance. From the date below I cease to be a citizen of Europe and can no longer be considered thus.

From this day (date)Day.....Month.....Year.....

I (as named above) reject dual citizenship and return to the status of a British subject only and will never be considered as a citizen of any other nation or imposed European nation. I, by signing this document, swear an oath of allegiance to my Monarch who I believe will uphold her sworn Coronation Oath. From this moment on the legislation, documentation, constitution and other impositions formed in the European Union will no longer be legally binding on me, nor shall Her Majesty's Ministers be able to renounce my status as that of a British subject, by treaty or other means, as to do so would make me stateless which under International law is illegal.
